Master Cadre update

- Master Cadre is a core group of professionals representing different systems and disciplines who are deeply trained and proficient in the Pyramid Model content.

The master cadre

- Master cadre lists developed. Role of the master cadres:
  - Make focused decisions around what must be included for fidelity to the training
  - Review, edit and upload the training content
  - Determine the data/information that needs to be collected related to the training
    - Related to the content of the training
    - Related to what people are doing with the training content
  - The chair(s) will represent the content at the State Leadership team meetings
  - The groups can decide how often and where/how they will meet
- The master cadre will work with implementing communities to build training capacity within the community
