

PYRAMID MODEL INFANT/TODDLER PARENT MODULE: *PARENTS INTERACTING WITH INFANTS*

The Pyramid Model Infant Toddler parent module focuses on enhancing the social and emotional development of infants and toddlers by expanding on and strengthening parent-child interactions and relationships. While the primary emphasis is on parent-child groups, the module also addresses how the model can be applied to home visiting.

Participants of this workshop will learn:

- ◆ The characteristics and strategies of dyadic interactions
- ◆ Information and strategies for facilitators to support and enhance dyadic interaction (triadic support)
- ◆ Information and strategies for facilitators to support parents as observers (Developmental Observation Topic and Environmental plan)

This workshop session is most applicable for individuals who have responsibility to support parents in parenting practices through parenting groups, parent/child playgroups or home visits.
